

NEW ENGLAND'S ECONOMY

RUNS ON PROPANE

Green, sustainable propane is a crucial component of a healthy New England home and a healthy New England economy. Across the region, propane heats homes and storefronts, powers forklifts and construction, creates jobs and small-business opportunities, and contributes billions of dollars to annual GDP. Look at the integral role propane plays in your home state and those of your neighbors.

VERMONT

- 147,808** HOMES USING PROPANE
- 76,619,000** RESIDENTIAL GALLONS
- 119,078,000** TOTAL GALLONS
- 1,870** PROPANE JOBS
- \$366,595,000** ECONOMIC CONTRIBUTION

MAINE

- 278,811** HOMES USING PROPANE
- 82,869,000** RESIDENTIAL GALLONS
- 165,581,000** TOTAL GALLONS

- \$680,763,000** ECONOMIC CONTRIBUTION

NEW ENGLAND TOTALS

1,114,566 HOMES USING PROPANE	475,681,000 RESIDENTIAL GALLONS	776,535,000 TOTAL GALLONS	11,591 PROPANE JOBS	\$2,805,951,000 ECONOMIC CONTRIBUTION
---	---	-------------------------------------	-------------------------------	---

NEW ENGLAND'S USE OF PROPANE CONTINUES TO GROW THANKS TO A BOOMING NEW-CONSTRUCTION MARKET. MORE AND MORE NEW ENGLANDERS TURN TO GREEN SUSTAINABLE PROPANE AS A SOURCE OF CLEAN ALTERNATIVE ENERGY THAT CAN LOWER THEIR CARBON FOOTPRINTS, REDUCE HEATING AND COOKING COSTS, AND PROVIDE SECURITY AND PEACE OF MIND DURING WINTER ELECTRICITY OUTAGES.
